Agile Methodologies

WORK HISTORY

Schmidt Futures Full Stack Developer

June 2022 - August 2022

- Collaborated with cross-functional teams to design, develop, and launch new features for single page applications using PERN stack.
- Identified and resolved technical challenges by leveraging strong problem-solving and debugging skills; employed best practices for testing and quality assurance, ensuring reliable and secure applications.
- Enhanced user experience by developing and implementing a responsive front-end interface using React.

Moving Mountains Tutoring and Mentoring, LLC Web App Developer

June 2021 - Nov 2021

- Supported and managed design and development project using Wordpress, with a focus on user experience for clients in the Education sector, resulting in an optimized landing page and decreased bounce rate.
- Successfully managed and organized site content in the WordPress dashboard, ensuring easy navigation and intuitive user journeys. Implemented user-friendly features and visual enhancements.
- Conducted market research to gather insights into the target demographic; meticulously crafted user profiles based on the acquired data.

EntAsia Volunteer Front End Developer

Sept 2014 - Feb 2016

- Collaborated within an 8-person design and development team to execute a comprehensive rebranding initiative for a community forum website.
- Integrated plugins seamlessly and personalized their visual elements to harmonize with the site's brand and design guidelines using XenForo forum software.
- Optimized templates to meet design and functional specifications, resulting in a 25% improvement in page load speed and a 10% increase in user retention.
